Hot-Dipped Galvanized Nails

Uticom's nails are double hot-dipped galvanized, which provide superior coating over an electro galvanized product.

Each nail is dipped into molten zinc twice to ensure a thick, uniform coating that mitigates any pinholes or imperfections. The hot-dipped galvanized process is the only protection against rust.

- ▲ Lifetime warranty against red rust
- ▲ Meets ASTM A153
- ▲ Will not bend
- ▲ Superior grip
- ▲ American Made

For Use With
UtiCarrier

Aluminum Slide In

Part # UTI-NAIL-1.5-4D-1LB

1.5" hot-dipped galvanized tag nails
with .080" flat head

1 pound box, approximately 392 nails
